Consent

The young person's capacity to consent to be admitted into hospital must be assessed. For the young person (or parent / carer) to make an informed decision; information, where possible, should be explained in terms of expectations of the admitting hospital re engagement, observation practices, treatment programme etc.

Considerations also to take into account:

1. Competent child or young person can consent to admission
2. Parent can consent on behalf of a child who is not competent and falls within zone of parental control
3. Over 16 who lacks capacity and where admission does not involve deprivation of liberty can be under provisions of Mental Capacity Act.
4. If a competent child/young person refuses or there are reasons not to rely on consent or if parental consent not applicable or reasons not to rely on parental consent then consider admission under the Mental Health Act 1983 (NB: only young people detained under the Mental Health Act may be considered for Psychiatric Intensive Care Units (PICU), low or medium secure units).

Important Notes

Please ensure that the NHS England CAMHS Case Manager receives a copy of Form 1 at the **same time** as the local Access Assessor for **all** referrals. Patients who may need out of area placements will need to be discussed and approved by the CAMHS Case Manager to ensure there are no delays in admission.

Further details on the referral process can be found in the NHS England Operating Handbook, which can be obtained from your CAMHS Case Manager.

PART A: Must be completed for all referrals and less than 7 days old. Inpatient units prefer PART B of this form to be completed, although supporting clinical documentation can be submitted with PART A, it must include the information from all the sections covered below. If not please COMPLETE PART B. PLEASE CHECK that all sections are covered before sending the referral.

Lack or out of date information and incomplete sections can result in a delay in admission due to the inpatient unit not having the necessary and relevant information to make clinical decision.

Addition information for a Referral for Assessment into Low or Medium Secure Inpatient Service for Children & Young People

The additional information only needs to be completed if a young person requires consideration for a low or medium secure in-patient placement, please follow the steps below:

- The NHS England Referral Form 1 should be sent to the relevant Access Assessor and NHS England CAMHS Case Manager for a local access assessment. Once a Form 2 has been completed a referral to a secure setting can be made
- decide which type of secure setting is required using the guidance on the following page; ensure that it is not a short-term PICU as opposed to a longer-term low or medium secure unit (LSU or MSU) that is required
- if there is uncertainty about whether a low or medium secure placement is needed, contact a senior clinician (preferably at the nearest medium secure unit) in the national Medium Secure network to help clarify this (contact details on p 3 of this appendix)
- once the level of security has been identified:
 - ensure, in the case of a medium secure referral, that the patient's CCG is aware that a referral is being made, and that they will fund the initial assessment; referrals to low secure care do not incur an assessment fee
 - complete the additional information form (pg. 4-6 of this appendix) in relation to issues of risk, youth justice or other statutory status; this information should supplement (and not replace) the standard NHS England in-patient referral form for young people
- In the case of a need for low security, refer to the nearest low secure unit to the young person's home after discussion with the local NHS England CAMHS Case Manager.
- In the case of a need for medium security, refer to the nearest unit within the network (as outlined on page 3 of this appendix); the medium secure units function as a network and all referrals will be considered by all the units within the network once a week or as detailed within the service specification.

Medium Secure Provision	Low Secure provision
<p><u>Referral Criteria</u></p> <p>The young person is under 18 years of age at the time of referral and within a foreseeable time of admission</p> <p>AND:</p> <p>The young person is liable to be detained under either Part II or Part III of The Mental Health Act 1983</p> <p>AND:</p> <p>The young person presents a significant risk* to others of <i>one or more</i> of the following:</p> <ul style="list-style-type: none"> • Direct serious violence liable to result in injury to people, • Sexually aggressive behaviour • Destructive and potentially life threatening use of fire <p>AND:</p> <p>There is clear evidence prior to referral that serious consideration (and testing where appropriate) of less secure provision will exceed the ability of available mental health services to meet the needs of the young person.</p> <p><i>* It is not necessary that the referred young person should be facing criminal charges for these risk behaviours, but it is necessary that there should be reliable accounts available of such behaviour.</i></p>	<p><u>Referral Criteria</u></p> <p>The young person is under 18 years of age at the time of referral</p> <p>AND:</p> <p>The young person is liable to be detained under either Part II or Part III of The Mental Health Act 1983</p> <p>AND:</p> <p>The young person is not safely managed in an open environment and is assessed as having needs than cannot be managed by shorter term admission to a psychiatric intensive care unit (PICU)</p> <p>AND:</p> <p>The young person presents a risk of harm to others; themselves or suffers from a mental disorder that requires inpatient care, specialist risk management procedures, and specialist treatment intervention.</p>

Important Considerations

Young people with mental disorder who present a grave danger to the general public (which may include some high risk young people who may have no offending history, as well as those who have been charged with or convicted of specified violent or sexual offences under Schedule 15 of the Criminal Justice Act 2003) should be referred to the medium secure network.

Young people who are directed to conditions of security under a Restriction Order by the Ministry of Justice (s.49 MHA); to include a young person in custody (remand or sentenced) OR have has been sentenced by a Crown Court to a Restriction Order (s.41 MHA) should be referred to the Medium Secure Network.

Young people with brief episodes of disturbed or challenging behavior as a consequence of mental disorder (including neurodevelopmental disorders) are usually most appropriately cared for in PICU.

When uncertain, referring clinicians are encouraged to seek advice regarding whether a young person would be most appropriately referred to low secure or medium secure; this advice can be provided by senior clinicians within the medium secure network (contact details on page 3 below).

The medium secure service is provided through a clinically managed network consisting of six units:

Unit	Provider and contact details	Number of beds	Gender
------	------------------------------	----------------	--------

Alnwood, Newcastle	Northumberland, Tyne and Wear NHS Foundation Trust Tel: 0191 223 2555 Fax: 0191 223 2235	15 mental health 7 learning disability	Mixed
Ardenleigh, Birmingham	Birmingham and Solihull Mental Health NHS Foundation Trust Tel: 0121 678 4602 Fax: 0121 678 4609	18 mental health	Mixed

Wells Unit, West London	West London Mental Health NHS Trust Tel: 020 8483 2244 Fax: 020 8483 2246	10 mental health	Male only

Once a Form 1 and 2 have been completed by the local Access Assessor and discussed with the NHS England CAMHS Case Manager, referrals can be made to the closest unit to the patient's home even if it will not be the admitting unit. All referrals are discussed at a weekly National Referrals Meeting with input from all units (held via videoconference) and a NHS England CAMHS Case Manager when, if appropriate, the referral will be allocated to a specific unit for assessment. This allocation will be made based on available treatment, geography and current capacity to admit.

There is currently a one-off fee for assessment, to be paid by the patient's CCG. All other health costs associated following admission will be met by National NHS England commissioning arrangements. The medium secure service undertaking the assessment will need to seek funding approval from the relevant CCG, but no funding decision should affect the assessment being undertaken.

The units welcome early discussion of potential referrals, and encourage clinicians to make contact prior to referral.
